51 Shakti Peeths are very important and ancient Hindu religious pilgrims. The story of formation of these Shakti peeths comes in Purans.

Devi Parvati in her last birth as the daughter of Daksha was married to Lord Shiv. Once her father daksha was promoted to head of Prajapati by lord Brahma. He got too much pride and hosted a Yagya, in which he didn't invite his daughter Sati and Lord Shiv.

But Sati became very happy and sought his permission to attend the yagya. Lord shiv refused and said, "He has not invited us, so we must not go. Although we can go to our parents home with out invitation, we must not go there.

Sati was not satisfied with all this and was settled to go there.

When Sati reached there she saw that there is no part of lord shiv in the Yagya and she was not greeted by anyone except mother. She felt very much insulted not seeing the part of Lord Shiv in the Yagya and left her Prana (died by Yagya).

Lord Shiv became very violent and took his Mahakal posture. He destroyed the whole Yagya. But his anger was not still pacified. He lifted the dead body of Devi Parvati on his shoulder and started Tandav.

The whole of the world became terrified and all the gods went to Lord Vishnu and sought his help. Vishnu went there and he was also not able to pacify Lord Shiv. He then ordered His Chakra and chakra started chopping the parts of the dead body of Sati one by one.

When nothing was left on the shoulder of Lord Shiv he was also pacified. There were 51 parts in total made of the dead body and the places where these parts of body fell are recognized as the Shakti Peeths. Below is the list of 51 Shakti Peeths with Bhairav.
